

KIRAN DIKSHIT MENON A

SOC Analyst | Threat Detection | Incident Response

My Contact

✉ kiranmenon16@gmail.com

☎ 8310221099

📍 #699, JP Nagar, Mysuru.

Education

PES College of Engineering, Mandya — MCA |

CGPA: 9.1/10 | 2016–2019

Publication: "Secure Paper Publication using Data Mining" — IJESC | Vol. 9, Issue 5 | May 2019 | ISSN: 2250-1371

Technical Skills & Expertise

- SIEM: FortiSIEM, Splunk, ArcSight, ELK
- Threat Hunting: Hypothesis-driven hunting, log correlation, IOC analysis, detection use cases
- EDR: SentinelOne
- Network Analysis: Wireshark, Zeek, Brim, NetworkMiner; TCP/IP, DNS, HTTP
- Email Security: FortiMail, Symantec Mail Security
- SOAR: Cortex XSOAR
- DFIR: Autopsy, KAPE, Volatility, Redline, Velociraptor
- Vulnerability Assessment: Nessus
- Threat Intelligence & OSINT: Domain/IP analysis, email analysis
- Incident Response: Alert triage, investigation, containment, RCA
- Security Frameworks: MITRE ATT&CK, NIST CSF, Cyber Kill Chain, ISO 27001
- Operating Systems: Windows, Linux

Certifications

- Cisco Cybersecurity Defense Analyst
- SOC Level 1 & SOC Level 2 — TryHackMe
- Cisco Endpoint Security & Threat Management
- IBM Threat Hunting for SOC Analysts
- IBM Incident Response & System Forensics
- Splunk Fundamentals
- Certified Ethical Hacker (CEH v10)
- Certified Network Security Specialist (CNSS)

About Me

SOC Analyst with 3.3 years of hands-on experience in security monitoring, threat detection, threat hunting, and incident response at Securado. Experienced in investigating security incidents across SIEM, EDR, network, and endpoint environments, including malware, phishing, and suspicious activity. Supported security operations for 12 SIEM customers and 34 EDR customers, with experience in log analysis, IOC analysis, detection use-case tuning, and false-positive reduction. Strong understanding of attacker TTPs and MITRE ATT&CK mapping, with hands-on security lab experience through TryHackMe and Hack The Box. Working knowledge of ISO 27001 and security operations best practices.

Professional Experience

Securado Pvt Ltd – Muscat, Oman | SOC Analyst
Feb 2021 – May 2024

- Monitored and investigated security alerts across 12 SIEM customers and 34 EDR customers using FortiSIEM, ArcSight, Splunk, Elastic and SentinelOne.
- Handled security incidents end-to-end, including alert triage, investigation, containment, remediation, recovery, and root cause analysis.
- Performed threat hunting across SIEM and EDR environments, using log correlation, IOC analysis, threat intelligence, and OSINT to identify suspicious activity and map findings to MITRE ATT&CK.
- Created and tuned detection rules and use cases, correlating endpoint, network, and email telemetry to improve detection and reduce false positives.
- Investigated malware, phishing, and suspicious email activity, including email headers, URLs, attachments, payloads, and endpoint behavior.
- Performed host-level and basic forensic investigations, including system analysis, cleanup, reimaging, and root cause analysis using relevant DFIR tools.
- Worked with IT, Network, and Security teams during incidents to coordinate containment, remediation, and recovery.
- Documented investigations, incident findings, playbooks, and procedures to improve SOC processes and knowledge sharing.
- Supported Nessus vulnerability assessments and worked with the Red Team and infrastructure teams to validate findings and coordinate remediation.
- Used Cortex XSOAR to automate repetitive SOC tasks and improve response workflows, while also supporting ISO 27001 activities and SOC reporting.
